## 1.3.2 Average percentage of courses that include experiential learning through project work/field work/internship during last five years

Year	2016-17	2017-18	2018-19	2019-20	2020-21
Total number of courses	147	164	181	181	181
Number of courses that include experimental learning	22	25	29	28	27

The following Formula is used for the calculation as per the NAAC Manual :

$$= \frac{\text{Number of courses that include experiential learning through project work/field work/internship}}{\text{No.of Courses in all Programs}}$$

With the help of the above formula, the Percentage per year values are obtained as follows:

Year	2016-17	2017-18	2018-19	2019-20	2020-21
Percentage Per Year	14.97	15.24	16.02	15.47	14.92

Further, with the help of the percentage per year values, average percentage is calculated

$$\begin{aligned} \text{Average Percentage} &= \frac{\sum \text{Percentage per year}}{5} \\ &= \frac{\sum 14.97+15.24+16.02+15.47+14.92}{5} \\ &= 15.32 \end{aligned}$$

Thus, Average percentage of courses that include experiential learning through project work/field work/internship during last five years is 15.32.
