Calculation of Percentage Per Day Usage of Library by Teachers and Students

As per the criteria given in para 4.2.4 of the Manual for Self-study Report for Affiliated/ Self-constituted College, for calculating the percentage per day usage of library by teachers and students, the number of teachers and students using library per day over last one year is needed to be calculated. The number of teachers and students using library per day over last one year is done as follows:

Number of teachers and students using library per day over last one year :

$$= \frac{\text{Total number of students and teachers using library in a year}}{\text{Total number of working days in a year}}$$

As, total number of teachers and students who used the library was 433 and total number of working days in the year was 112, per day usage is obtained as follows:

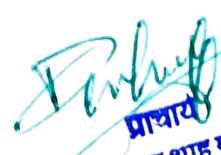

Per day usage of library by teachers and students

$$= \frac{433}{112}$$
$$= 3.86$$

Per Day Usage of Library by Teachers and Students:

$$= \frac{\text{Number of teachers and students using library per day}}{\text{Total number of teachers and students}} \times 100$$
$$= \frac{3.86}{815} \times 100$$
$$= 0.47$$

Hence, the Percentage Per Day Usage of Library by Teachers and Students is **0.47**.
